

PDC Gaskets

PDC Gaskets is a division of the PDC group of companies which focuses on manufacturing extrusion for the local window and door industries. In 2007 the company purchased its first extruder and now is one of the largest gasket manufacturers in the country.

More than 110 different gasket profiles are extruded from a simple Polyvinyl Chloride (PVC) wedge to complex co-extruded bubble seals for the glazing of aluminium windows and doors. Both the PVC and the Santoprene are only extruded in black. Santoprene is a Ethylene Propylene Diene Monomer (EPDM) /Thermoplastic Vulcanizate (TPV) product that has better properties (shrinkage, high temperature resistance, lead free) than the cheaper PVC range and is used in higher end applications eg. high rise buildings. Our Nitrile rich gaskets have additional shrinkage resistance when compared to the standard PVC gaskets.

Our extruders have the capacity to extrude over 4 million metres of gasket a month.

Our Company

PDC is an innovative supplier of brass, aluminium and zinc castings to the South African and international markets. We are a specialist die caster, who has been in business since 1952. We have built our company, customer by customer:

We manufacture more than 100 different components for a number of industries with more than fifty percent of production being exported. All our products are manufactured under ISO 9001 quality standards and are supported by in-house design and toolroom.

Our stockholdings are based on customers' requirements and also take into account any cyclical off-take. We deliver to Gauteng within 2 days and the Cape within 5 days of shipping, thereby alleviating the need for our customers to carry large stocks.

Should any stockist feel that an installer or fabricator need assistance, we are available to troubleshoot the issue. We provide product training and support to our customers as well as any technical drawings of products that may prove useful at the installation phase.

Distribution

PDC distributes nationally from our factory in Pietermaritzburg, KwaZulu-Natal. Call us for more information.

Pressure Die Castings (Pty) Ltd (Pietermaritzburg)
